Exploration Inc of Nevada
Board of Directors
2908 E. Lake Mead Blvd.
North Las Vegas, NV 89030

Sirs:

I, James B. Hanhardt, as of June 1, 1990, resign as Vice President in charge of Mines Operations of Exploration Inc. of Nevada.

The reasons for my resignation are as follows:

1. The title of Vice President in charge of Mines Operations has been a office in name only with no authority or power to change or influence the actions of the Company.
2. I fundamentally disagree with Larry Hahn's position and attitude that all legal matters pertaining to the Company's actions can be taken care of retroactively once the River is found. I feel they should be taken care of before proceeding with any further exploration efforts.
3. I disagree with the haphazard way the explorations have been done without checking into where we are on our claims, or how we stand with the BLM and MSHA.

I do not want the responsibility inferred by the title of Vice President for matters which I have had no knowledge of and/or authority to change.

I request that this letter of resignation be published in the next investor's newsletter.

James B. Hanhardt
