

**Photo Fictions  
Are NOT Facts at  
the “Kokoweef, Inc.,  
Official Website” Tour**

**- Scroll Down to *SEE* Why! -**

Good Morning Kokoweef Shareholders and / or  
Truthseekers,

“Truth is what it is - - NOT what you  
imagine it to be or are conned into believing.”

- R. E. Lewis

For example ...

The TRUTH is that these two photos are  
**NOT** and never will be part “of Kokoweef ”  
caverns.

NOTE: Time and focused attention will probably reveal  
that photos #1 & #2 are not ‘at Kokoweef ’ as  
well.

To me, it is a sad fact is that these UNresearched and falsely identified photos are being used to emotionally manipulate investors of Kokoweef, Inc. into believing the “airflow” and “new breathing drill holes” ought to get us to the likes of THESE very caves “of Kokoweef.” More on this at the end ...

Meanwhile, “hang on and grit your teeth” while I **SHOW YOU** some “re-balancing levity” to help heal the mix of reality vs. legalese hittin’ YOUR Kokoweef fans these days. Our more enlightened readers will

simply Laugh Out Loud ... at the 'new' evidence below as simply being more of the common, treasure hunters' "Mental Miss-takes."

So, what you and I are shown on the Official [www.kokoweefinc.com](http://www.kokoweefinc.com) website by clicking on their top "TOUR" button is one flipitty-doo-da photo (#4) "of Kokoweef Cavern" hyped by this amazing B.S. :

"The final picture of the cavern. Notice the **depth** and how **vast** the cavern is in this view ... Spectacular!"

The "tour" IS portrayed out as BEING actual reported photos "of Kokoweef Cavern."

This is a GROSS Miss-perception by a **Miss-leading presentation** which capitalizes on **FAL\$E** assumptions.

Just ONE simple email reply, sent back from a CAVE EXPERT, states:

**“Picture #4 is upside down but shows large stalagmites in Carlsbad Cavern.”**

*In reality, photo #4 CORRECTLY viewed RIGHT WAY UP looks like this:*

***And, YIKES ! , if you click on the links below you will SEE that this is NOT an “of Kokoweef cavern” place but is, in truth, inconveniently parked inside CARLSBAD Caverns!***

***Here’s “The Clincher” photo that reveals the truth for comparison and an accurate conclusion:***

[http://en.wikipedia.org/wiki/File:Giant Stalagmites in Carlsbad Big Room.jpg](http://en.wikipedia.org/wiki/File:Giant_Stalagmites_in_Carlsbad_Big_Room.jpg)

<http://www.britannica.com/EBchecked/topic/96093/Carlsbad-Caverns-National-Park>

***Giant Dome and Twin Domes, stalagmites in the Big Room of Carlsbad Cavern, one of the caves in Carlsbad Caverns National Park, southeastern New Mexico.***

***Peter Jones/National Park Service***

[www.cardcow.com/9725/giant-dome-and-twin-domes-carlsbad-caverns-national-park-national-parks-carlsbad-caverns-national-park/#img\\_bk](http://www.cardcow.com/9725/giant-dome-and-twin-domes-carlsbad-caverns-national-park-national-parks-carlsbad-caverns-national-park/#img_bk)

*Giant Dome and Twin Domes*

***I easily learned all this by contacting Dave Bunnell through his beautiful cave website at:***

[http://www.goodearthgraphics.com/under\\_earth/](http://www.goodearthgraphics.com/under_earth/)

*NOTE: Dave's website also got me to wondering, "How long will drillers and dyna-miners leave any beautiful caves at Kokoweef unscathed in the pursuit of imagined gold just 'two more feet' out of sight?"*

***NEXT after Image #4 had "the B.S. wind knocked out of it," I sent the three remaining images (#1, #2 & #3) to more people for help in identifying more TRUE locations as well. Soon I received a reply from another cave expert, the Executive Director of the American Cave Conservation Association, regarding photo #3.***

**He replied, “The first two photographs were not familiar, however, the last one (Photo: #3) is very clearly Cottonwood Cave in the Guadalupe Mountains of New Mexico.”**

[www.geocities.com/~caves/ed33c.htm](http://www.geocities.com/~caves/ed33c.htm)

*Cottonwood Cave is located in the **Lincoln National Forest**. The cave has a large walk-in entrance, and the first thing you see is a large display of huge formations standing **IN THE DAYLIGHT**. (Actually, **THE SUN** lights the huge **FRONT** of Photo #3) The passage size is very large and some of the formations are almost 75 feet tall. Toward the rear of the cave you can descend a steep slope into the lower section of Cottonwood which is closed in the winter months due to bats hibernating.*

*It's location and geology:*

# ***Truthseeking is HARD to do when ...***

The hard parts about finding “too much truth” is knowing **the pursuit of it is being blocked** by indifference, arrogance, attempts at Internet-media suppression or, by what often works ‘best’ in human psychology (and dictatorships) ; **simply IGNORING it and not communicating it** *even though the true context of a fact is discovered and revealed in Black-and-White.*

My continuing off-property researches for “B.S. & BeanS” vs “Truth for the Kokoweef legend,” shows YOU, here-and-now, there is PROOF that two of the photos so wildly spun up on the “Official” Kokoweef website are, in truth, “Miss-Placed” (misrepresentations) from two OTHER well-known, cavern locations.

Like it or not, this revelation is what I have found to be a familiar, goal-defeating historical theme in the tangled miss-information mess “about Kokoweef”: i.e.

just MORE Assumed, UNverified, “Miss-Spoken” so-called emotionally driven FALSE ‘facts.’ Such information is supplied due to people **NOT** RE-searching **FIRST** for valid, verifiable **INFORMATION** to follow. Even though photos #3 & #4 below are “emotionally motivating” they are easily & quite ***self-deceiving***.

Being eternally curious and knowing that *only ACCURATE, **objective information** drives ACCURATE, efficient decision-making*, I basically needed to look for the **REAL** - - not assumed - - **TRUTH** about these four so-called "**Spectacular!**," "**Incredible!**" and "**vast... depth**" photos being displayed at the [www.kokoweefinc.com](http://www.kokoweefinc.com) website under their “TOUR” button; ALL “reportedly” relating to the ‘lost’ Kokoweef Cavern-Canyon circa “1930.”

You will soon realize, **this is also NOT** the sort of thing to

ever be putting into a “full-disclosure” for SEC registration of any future, public stock offerings for Kokoweef, Inc. or ANY other public offering\$.

- - AND, hopefully, it begins to show **WHY regulations ARE required** for such considerations when any person is using the money of OTHER investing citizens in America.

Once the evidence is plain to see you will then have to consider this:

Question #1 for **ALL** Kokoweef, Inc. investors - -  
August 2009

How long will the here-revealed “B.S.” about Photos #3 & #4 REMAIN on the “Official” but-poorly-researched and emotionally-well-promoted website for Kokoweef Inc.? To whit ...

TRUE FACTS about photos #3 & #4 :

Each image has the same photo number used by the Kokoweef, Inc. website which I refer to as:

#1 - Underground Canyon? - pending true identification - probably at a known, commercial cave

#2 - Man in Cave at River? - pending true identification - possibly in Mammoth Caves

#3 - Men in HUGE cave? - **DISPROVED** = NOT at Kokoweef

#4 - Two HUGE cave formations? - **DISPROVED** = NOT at Kokoweef

Oh well, **truth is what it is**..... but, first, you must be willing to seek & share it for it to find YOU.

Once I have also PROVED the ‘facts’ about photos #1 & #2, I’ll let you know where they are located ... unless you can find ‘em first. And I DO encourage

anyone to DO YOUR OWN INTERNET HOMEWORK (or field work) **and to “share the truth.”** When truthseeking is not being obstructed or costing half a fortune, it really can be fun to “bring truth to light.” So, yes, please let me know if you come up with some **more truth** on your own Internet surfin’ RE-searching. **It’s always worth sharing AND I appreciate it !**

- - -

Meanwhile, as court-tempers flair, true and objective insights will suffer (be ignored), along with CORE-drilling for mineral sulfide facts at Kokoweef Peak. And more TRUE answers YOU need NOW will just keep right on “blowin’-in-the wind.”

Which brings me to the other “exciting” subject of “breathing drill holes.” It is very important to realize that the locally spun breathing-drill-hole “facts” do NOT “prove” ‘EarlDorr’s’ legend at Kokoweef - - or anywhere for that matter. Whether you are aware of it or not, such airflow occurrences HAVE been widely reported by drillers and cave-crawlers around the entire PLANET. And, just like bogus photos, ALL those breathing holes will NEVER link to the “Earl Dorr legend or Kokoweef Peak.” So, yes, “strong airflow” is

good evidence for, as I call it, “a massive cave network.” However, it’s a poor ‘proof’ for “all that imagined gold” bandied about by every mentally-blinded prospector-investor since the Geat Depression who STILL follow the shadows of footsteps beginning with Earl Dorr's verbal and written (unverified) STORIES... and LIES.

Simply considering HOW the physical limestone strata dips down from the location at the present breathing-hole drill site, the MAJOR portion of such a massive cave network WILL necessarily BE UNDER the Mojave National Preserve boundary line in about 500 feet. (LOL - - just try mining in a cave that shares the SAME water and air managed by the PArk Service! ) - - and don't forget, Earl Dorr indicated “ALL the gold is UNDER the limestone” purportedly some 1,800 feet below in the GRANITE. And, unless such a SHALLOW cave is profitably mineralized, the Federal Cave Protection Act WILL kick in to preserve a “Federally protected natural resource.” If anyone is tellin’

you otherwise it's **pure B.S.** So, most of anything being done to “get a person into an **IMAGINED** big-money, gold-drenched cave” works against the development of **REAL** mineral potential\$ (return on investment) for Kokoweef Peak's mineral sulfide indications. There is **no such thing** as mining claims that confer exclusive and immediate rights to butcher any new **CAVES** that are **OFF** the leased **PRIVATE PROPERTY** at Kokoweef.

Read the Federal Cave Protection Act of 1988 - - ( Bill Clinton signed this one )

[www.caves.org/committee/conservation/www/c\\_imax/articles/federalcaveprotectionact.htm](http://www.caves.org/committee/conservation/www/c_imax/articles/federalcaveprotectionact.htm)

Living well is **ALL** about the information **YOU** perceive, HOW & WHY it is selectively (or sloppily) presented to **YOU**, what **YOU** are not allowed to find out through **ACCURATE** investigating and reporting, how **YOU** emotionally & mentally process it and, thereby, can **KNOW** as being the actual, living “breathing” truth. One thing is certain: Lies, or

plain “not-facts,” are NOT the truth. Which do you want to be finding & following?

So, again.... I’m still wondering, just how long will the two “reportedly” historical photos #3 & #4 “of Kokoweef Cavern” remain to be used as **false facts** for **emotionally promoting** the B.S.-riddled Kokoweef legend? Those photos are now just more ‘evidence’ for miss-placed imaginations “blowin’-in-the-wind” at [www.kokoweefinc.com](http://www.kokoweefinc.com). Please have them removed. Thank you.

If any readers here have other questions about the Earl Dorr / Kokoweef legend, you are welcome to ask Ralph at his email address:

**Ralph-**  
**Lewis@kokoweef.com**

And remember, **YOU all ways can look for the TRUTH at [www.Kokoweef.com](http://www.Kokoweef.com) !**

**That's why some folks find this website sooooo “inconveniently**

annoying” and seek to have it totally suppressed. I'm wondering, “ Why is that so? ” All I can say about that is,

**“ GO POUND BLACK SAND.” LOL !!!**

Cheery OH !!!

Ralph Lewis ... Shareholder & TRUTHseeker
