**Subject:** Attachment included here with Ralph's resignation note

Hi to the [Kokoweef.com](http://Kokoweef.com) news crew,

Here are two .pdf files showing a photocopy of my original resignation letter and its certified receipt received by Larry Hahn waaaaay back in 1992.

You have my permission to post this note and/or the photocopies on "the Kokoweef.com website as "historical evidences" that the current legal wrangling about Kokoweef, Inc. was a major concern to me LONG ago (formerly named Explorations Inc. of Nevada or "EI of Nevada," here).

I can assure you my decision to resign was not easy for me. Yet, the uncompromising & arrogant "it's my way or the highway" management style of Mr. "51%" Hahn left me no other reasonable, LEGAL choice. Regardless, being faithful to my then-unresearched dream\$, I did remain as an active (per\$onally unwise) participant in the projects at Kokoweef Peak for many, many years after resigning from as a V.P. & Secretary for Explor.Inc.of NV. I had "influence" but no real "shared power." As Larry Hahn described to me, the Kokoweef project was like a "beneficial dictatorship," which he also spoke of as being "the best form of government." Well, maybe that's best for SHEEP but I doubt it truly applies well for groups of people who want to think for themselves, the group's best interest and efficient uses for their money.

The actual catalyst to definitely send a "Constructive Letter of Notice" for my resignation was recommended by my mining attorney, Bill Tilden. This was immediately after I had explained the number of stockholder and, what seemed to me, an obvious Corporate-charter conflict. My attorney, Bill Tilden, was the most conscientious, clear-thinking communicator I have ever met.

Looking back, my only surprise was that it has taken so long for the old legal issue\$ to erupt into such intractable, venomous positioning between long-term friends.

Oh well, that's the "Attorneying Game," which often leads to fomenting such sad situations ... for a "benefit" ... of cour\$e.

You may ask, "How could this happen?"

Well, pick up a mirror and ask yourself, "Is my self-silence, or allowing oneself to be silenced, ever independent of this?"

And, please try to feel what you read in the updated poem at [www.kokoweef.com](http://www.kokoweef.com)

Sincerely,

Ralph Lewis

Note: Ralph Lewis originally sent two Adobe Acrobat pdf files, one of his Resignation Letter as Vice-President of Explorations Incorporated of Nevada and the signed receipt of that resignation letter from Larry Hahn. We combined them into one Adobe Acrobat pdf file and also made jpeg images of both documents so that you can access both an Adobe Acrobat pdf file and read the document in HTML format on this website.
